

The Greater Atlanta Patriot Band is recruiting quality brass players and percussionists to fill out the band.

Formed in December 2009 in south metro Atlanta, we are a volunteer community band founded to perform in the local community and provide an opportunity for current and former musicians to play quality music of all genres.

We perform popular, patriotic and entertaining music during community concerts and events for civic and veterans organizations, Georgia based military personnel and their families, and Georgia communities.

We are not affiliated with the military services, but desire to play in support of citizens, veterans, and civic organizations in their communities.
